

Audi Genuine Care – Top-up Service Plan Terms and Conditions

1. Introduction

This document sets out the terms and conditions relating to the purchase of an Audi Genuine Care – Top-up Service Plan ("Audi Service Plan"). Audi Service Plan is provided by Audi Australia Pty Ltd ABN: 86 077 092 776 (Audi). Audi Service Plan may be purchased from participating Australian Audi dealers (Participating Audi Dealers) or online for eligible Audi vehicles ^ that have an existing 3-year Complementary Service Plan, 3-year Corporate Service Plan or 3-year Audi Genuine Care Service Plan (Original Service Plans). Audi Service Plan applies only in respect of the vehicle identified on the ASP Certificate issued at the point of sale of Audi Service Plan (the Vehicle). Audi Service Plan is transferable upon the sale of the Vehicle. A Vehicle's entitlement to Audi Service Plan will be recorded in Audi's electronic files relating to the Vehicle. ^ Eligible Audi vehicles are vehicles, which have not had the 4th service completed, are not older than 4 years (from the Warranty Start Date as set out on the contract of sale to the original retail customer or detailed in myAudi.com.au) and have not travelled more than 60,000 kms.

*Audi may, from time to time, change the service requirements for any of the Service Intervals in accordance with the manufacturer's recommendations. If a service that is stated as being included in the ASP Certificate is no longer designated as being required by Audi at a Service Interval that has not yet been performed as part of the Audi Service Plan, for example, if Audi discontinues any service requirements for a particular Service Interval for whatever reason (Discontinued Service Component), you will be entitled to a refund of the equivalent value of the Discontinued Service Component (subject to the offset mechanism below). If Audi requires an additional service to be performed at a Service Interval that has not yet been performed as part of the Audi Service Plan (Additional Service Component), the Additional Service Component will be performed at the relevant Service Interval at no additional charge to you. However, if the changes made to the service requirements for any unperformed Service Intervals include Discontinued Service Components and Additional Service Components (whether or not these changes apply to the same or different Service Intervals), the monetary value of any Additional Service Components will be offset against the monetary value of any Discontinued Service Components and the refund (if any) for the Discontinued Service Components will be reduced accordingly.
